

Women's Athletics to Celebrate 75th Anniversary

Plans are under way for a year-long commemoration of the 75th anniversary of women's athletics programs at Millersville.

"I think we can be very proud of the women's athletics programs at Millersville," says Marge Trout, director of women's athletics, "especially now, when you can pick up a newspaper and read about the problems that such programs are having at other institutions.

"We have much to be proud of, because our program is both academically and athletically sound. Of course, we must also stop and recognize that, without the support of the administration, we would not have the strong program that we have."

The 1993-94 academic-year celebration will recognize past and present programs through a series of anniversary events that will include numerous former student-athletes and coaches.

During the year, each of Millersville's

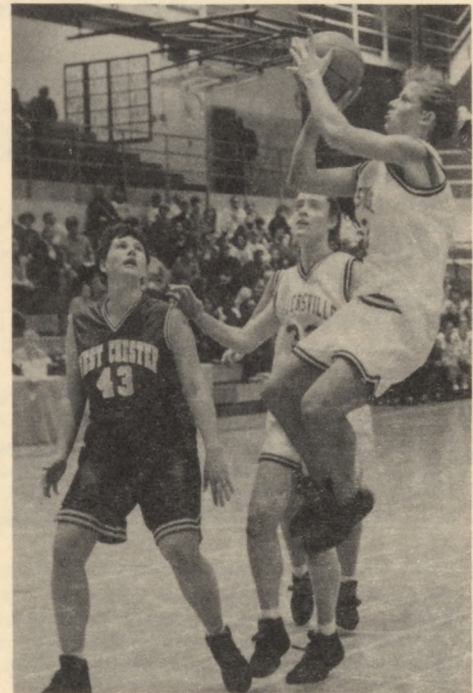

nine varsity programs will spotlight a home event. A pre-game or post-game reception will be held for alumni, former coaches, the campus community and honored guests. Each current student-athlete will wear a 75th anniversary patch on her uniform during competition in the 1993-94 academic year.

Other celebration highlights include:

- A gala anniversary dinner on October 10. The dinner, with featured speaker Judy Sweet, immediate past NCAA president, will recognize student-athletes and coaches who have brought distinction to Millersville women's athletics since the first varsity sport, basketball, was launched in the winter of 1918-19.

- A picnic on April 30, 1994, that will follow the Millersville Metrics track and field meet and conclude the celebration.

All events are by reservation only. For more information, call ext. 3352.

Basketball, the first women's varsity sport at MU, is still going strong after 75 years.

MU Signs Affiliation Agreement with PCO

The University has signed an affiliation agreement with the Pennsylvania College of Optometry (PCO) in Philadelphia that permits MU students to transfer their credits into PCO's Doctor of Optometry degree program. The agreement also enables the students to trim a year off the usual eight years that are required to complete the doctoral program.

Under terms of the compact, students who complete their first three years of undergraduate study at Millersville will be

eligible for admission into PCO's Doctor of Optometry degree program if they meet PCO's high academic standards, according to Dr. Timothy I. Ladd, MU's allied health coordinator.

"At the end of the first year of successful study at PCO's campus, the Millersville student would then be awarded a bachelor of science degree in biology from MU," says Ladd. "Several years of additional study will be required at PCO in order for an individual to receive PCO's Doctor of Optometry degree."

By reducing the time required to earn a Doctor of Optometry degree by one year, Ladd explains, students will reap a substantial savings in time and money.

On hand for the signing ceremony at Millersville were the following PCO officials: Dr. John Crozier, dean of student affairs emeritus; Robert E. Horn, associate dean of student affairs; Nancy Griffin, associate director of admissions; and Christopher Dougherty, assistant director of admissions.

Attending from Millersville were: Darrell Davis, director of admissions; Dr. Albert Hoffman, dean of the School of Science and Mathematics; and Ladd.

Robert E. Horn (left), associate dean of student affairs for PCO, and Dr. Albert Hoffman, MU dean of the School of Science and Mathematics, sign the affiliation agreement.

Middle States Association Commends MU Progress

The Commission on Higher Education of the Middle States Association of Colleges and Schools accepted the report on facilities submitted by the University in April 1993, commending the institution for progress in that area.

According to Linda Suskie, assistant to the president for special projects, "The report was requested by the commission after reviewing MU's 1990 self-study. They also requested a report on the MU Downtown Program, which was completed in April 1992 and also accepted by the commission."

The University's report reviewed the changes in status of its facilities since 1990, including the impact of new capital projects and of Commit to Opportunity, the University's capital campaign. The report also gave an overview of the future of facilities at Millersville.

The University will not complete another accreditation self-study until the year 2000. A periodic review report is due in 1995.

Staff Activities

DR. SY BRANDON, music, presented a paper, "Bringing Composers and Young Musicians Together Through Commissioning," at the Society of Composers Region II Conference held at Montclair State University, May 8. He also had his composition, *Robin Hood Suite*, performed at the conference.

DR. JACK CASSIDY, elementary and early childhood education, presented several papers at the 38th annual conference of the International Reading Association held in San Antonio: "The Role of the IRA Staff in the NCATE Review Process" and "Push-in, Pull-out: Program Convergence for Learners with Special Needs. What's Best?"

DR. JAMES COSENTINO, biology, was awarded a \$94,059 grant by the United States Agency for International Development to fund his undergraduate research program, "Synthesis and Biological Testing of Novel Compounds for Fertility Regulation in the Male." The grant period is one year.

DORIS CROSS, Upward Bound, participated in a panel discussion, "Double Minorities in State Government," that was part of a year-long Leadership Development Institute for Women, sponsored by the Pennsylvania Commission for Women and the State System of Higher Education.

AMY DMITZAK, public relations, recently was elected to the Cultural Council of Lancaster County's Board of Directors. As a member of the board, she will serve on the organization's Marketing Subcommittee.

MERRIS HARVEY, admissions, attended the NACAC Leadership Development Institute held in Nashville, Tenn., July 8-11.

DR. MICHEAL HOULAHAN, music, had his article, "Developing Harmonic Hearing," published in *Kodaly Envoy*, Vol. XIX, No. 3. And the second edition of his book, *Sound Thinking: Music for Ear Training and Sight Singing* (co-authored by Philip Tacka of Georgetown University), was published this year.

Also, Dr. Houlahan conducted research this summer at the Kodaly Institute and Kodaly Archives in Budapest, Hungary, for a paper to be presented at the 11th International Kodaly Symposium. In addition, he taught advanced conducting, theory/solfège and mu-

sic methods at a graduate seminar held at Southwest Texas State University in July.

SUSAN KASTNER, admissions, presented a workshop for new admissions and college guidance personnel during the annual conference of the Pennsylvania Association of Secondary School and College Admission Counselors, June 22.

PETER C. MESSIMER, resident life, was named third vice president of the Millersville Lions Club, and vice president and secretary of Landis Valley Associates, the support group for Landis Valley Museum. He also is serving on the Landis Valley Museum Strategic Planning Committee, which includes officials of the Pennsylvania Historic and Museum Commission, Landis Valley professional staff and community leaders.

DR. KARL E. MOYER, music, served as a reviewer for the McGraw-Hill, Inc., *Music 100*, sixth edition, textbook. This is the third time Moyer served as a reviewer for McGraw-Hill.

Also, Moyer presented a recital on an 1865 E. & G.G. Hook pipe organ before a capacity audience in Orwell, Vermont, August 1.

DR. GEORGE F. STINE, sociology/anthropology, has served as an item writer for the Regents College Examination in Foundations of Gerontology, which is administered by The Examination Development Office of the University of the State of New York.

Also, Dr. Stine has submitted examination items to Prentice Hall and reviewed a book of readings for St. Martin's Press. In addition, he has served the Dushkin Publishing Group as a reviewer and as a member of the advisory board for its *Annual Editions: Aging*.

DIANE ZIMMERMAN UMBLE, communication and theatre, presented a paper, "The Telephone: Negotiating its Use in the Articulation of Boundaries," at the International Conference on Amish Society: 300 Years of Persistence and Change, 1693-1993, sponsored by the Young Center—Elizabethtown College. A version of the paper will be published next year in a book edited by Don Kraybill and Marc Olshan and titled *War Against Progress: The Amish Struggle with Modernity*.

DR. ROGER W. WEBSTER, computer science, will be a referee for scientific research papers and

graphics submitted to *IEEE Transactions on Systems, Man and Cybernetics*, a journal published monthly by the IEEE Computer Society. The research papers focus on areas such as robot vision and artificial intelligence.

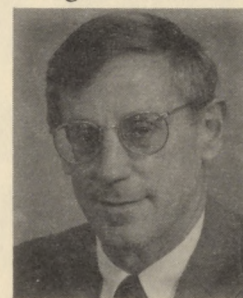

Activities of Retired Staff

BRUCE KELLNER, English, recently edited *The Major Works of Gertrude Stein*, a 16-volume set that includes an introduction and headnotes. It was published in June by Hon-No-Tomosha of Tokyo. Like other sets in the publisher's series, it is being offered to libraries throughout the world.

Also, a German translation of Kellner's *Gertrude Stein Companion: Content With the Example*, published by Greenwood Press in 1988, will be published this October by Achilla Press in Hamburg.

Mordosky Elected to ACUTA Directorship

Tony Mordosky, assistant vice president for computer technologies, recently was elected director of the Association of College and University Telecommunications Administrators' (ACUTA) Northeast Region. The organization serves some 870 institutions of higher education and 175 corporate affiliates throughout North America.

Tony Mordosky

Elected for a two-year term beginning July 22, Mordosky will be responsible for developing and increasing the membership through expanded networking, writing and soliciting information for the group's newsletter, and

setting regional meetings. The Northeast Region encompasses Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania and New Jersey.

Mordosky, a member of the MU staff since 1966, has over 25 years of management experience in the computer/informational services and food service management fields. Earlier in his MU career, he was director of food services.

Women Bowlers Sought

Several openings are still available in the MU Women's Bowling League program for 1993-94, according to league coordinator Rosemary Fisher. "Don't be shy or concerned about your skill level," she explains, "because we play for enjoyment, to exercise and to build friendships."

Membership in the league is open to MU faculty and staff and their female friends and relatives.

Bowling is scheduled every other Tuesday night, starting September 28, at Leisure Lanes on Columbia Ave.

Interested persons should call ext. 3598 during work hours or 872-9004 evenings by September 10.

Madama Butterfly Tickets Still Available

Reservations may still be made to attend a Saturday afternoon, October 16, performance of the American premiere of Puccini's classic "Madama Butterfly" as it was first produced in 1902. The show will be staged at New York City's Opera/State Theater.

Sponsored by the MEDAL Fund Trip Committee, the bus excursion will leave the MU campus at 7 a.m. for the 1:30 p.m. presentation and depart New York City for the

return trip at 8 p.m.

The performance, in Italian with English supertitles, will be directed by Frank Corsaro. Christopher Keene will conduct the music as it was originally composed and performed only once at its world premiere at La Scala.

Cost of the trip, \$100, includes transportation, opera ticket, breakfast on the bus and a \$13 donation to the MEDAL Fund Scholarship program. Reservations should be made as soon as possible by calling ext. 3352.

APSCURF Meeting Set

The Association of Pennsylvania State College and University Retired Faculties will meet at 10 a.m. in Lions Hall on West Charlotte Street in Millersville prior to the noon luncheon of the MU retirees in Gordinier Hall on Saturday, October 16. Prospective retirees are welcome.

Phi Eta Sigma Organizing

A chapter of the national honor society Phi Eta Sigma will be installed at the University on October 14. Dr. Dennis Denenberg invites all members to the ceremony and asks that they contact him at ext. 3485.

TALLY

BORN:

To Bryon and Karen Maze, health services, their first child, a son, Brandon Christopher, 7 lbs., 2 oz., on July 22.

To Dale and Keisha Milburn, admissions, a son, Kristopher, 7 lbs., 5 oz., on July 31.

MARRIED:

Dr. Michael Nolan, physics, and Janet MacGregor, August 13, in Millersville.

Dr. Gerald Weiss, chemistry, and Rebecca Sonerall, on July 17, in Lancaster.

Academic Theme to Focus on Environmental Issues

Public lectures by several distinguished scientists and environmentalists, a one-day conference, an art show, a special day-long meeting, a video series and a number of colloquiums are among the highlights of the University's 1993-94 academic-year theme: "Earth: the Next Generation."

The third year-long program focusing on a specific subject area, this year's theme addresses the challenges of creating and maintaining a sustainable environment (biosphere) for both human and other life, according to David A. Zegers, cochairperson of the MU Theme Steering Committee. "Our species faces a multitude of problems," says Zegers, "and during this academic year we will examine many of them through discussion, debate, lecturers, and other events."

Most activities are free and all are open to the public. Speakers, conferences or other events include:

- **Dr. Seymour Simon**, author of more than 90 books on science and computer technology, will speak at MU on Wednesday, October 27, at 7 p.m. in the SMC Multipurpose Room. His talk is titled "Making Children Aware of the Environment."

- **Eve Andrée Laramée**, an artist who studies how art and attitudes toward the land and landscape influence 20th century culture, will deliver two lectures at Millersville. On Tuesday, October 26, she will discuss "Issues of Land and Landscape in Contemporary Art," and on Wednesday, October 27, she will explore "Natural Phenomenon: The

Poetics of Science and Environmental Issues." Both presentations start at 7 p.m. in Myers Auditorium at McComsey Hall.

- **Dr. Stuart L. Pimm**, internationally known ecologist and the author of "The Balance of Nature?," will visit MU on Tuesday, November 30, and speak on "Species Extinction: Why Should We Care,

Earth: The Next Generation

What Should We Do?" at 8 p.m. in Myers Auditorium at McComsey Hall.

- **Jeremy Rifkin**, author/political activist and the world's leading critic of genetic engineering, will be at Millersville on Thursday, March 3. His address is slated for 7:30 p.m. in Bolger Conference Center's Lehr Room.

- "At the Crossroads: A Natural History of South-Central Pennsylvania," a one-day conference, will be held Saturday, November 6, from 8:45 a.m. to 5 p.m. in the SMC and Bolger Conference center. It will focus on the natural history of the area, with

special emphasis on ecological principles and human influences on ecological systems.

- **An art show**, featuring large sculptural forms by **Michael Shaughnessy**, is scheduled for April 11 through May 4 in Sykes Gallery at Breidenstine Hall. In conjunction with the show, Shaughnessy will deliver a lecture on April 7 at 7 p.m. in Myers Auditorium at McComsey Hall. He will speak on "Material as Message: The Use of Agrarian Materials in Large Sculptural Forms."

- "An Ethic for the Earth: Caring for the Planet and for the Next Generation," a one-day meeting, is slated for Saturday, April 23, from 8:30 a.m. to 3:30 p.m. in Bolger Conference Center. The meeting will feature presentations by three outstanding thinkers in environmental philosophy and ethics: Dr. Max Oelschlaeger, author and professor of religion and philosophy at the University of North Texas; Dr. Rosemary Radford Ruether, theologian, author and professor of applied theology at Garrett-Evangelical Theological Seminary; and Dr. Mark Sagoff, author and director/senior research scholar at the Institute for Philosophy and Public Policy.

- **The brown bag lunch video series**, set for the fall, will center on a wide range of environmental issues. Generally speaking, one video will be presented at noon on Mondays and another on Tuesdays in the SMC Multipurpose Room. Both will be shown at 7 p.m. on Mondays in Roddy Science Center, Room 239.

Turn Here Sweet Corn and On American Soil will be shown on September 13 and 14, respectively. Additional offerings will be announced in the *Exchange* throughout the semester under "Academic Theme Events."

- **The colloquiums** will be offered by Millersville's biology department and are slated for 4 p.m. in Roddy Science Center, Room 239.

"Are Charismatic Megaherbivores Important in Eastern Forests: The Role of White-tailed Deer," the first colloquium, will take place on Sept. 15 and feature Dr. William J. McShea of the National Zoological Park's Conservation & Research Center. Dates, titles and speakers for future colloquiums will be listed in the *Exchange* under "Academic Theme Events."

For more information, call ext. 3409.

Student Senate Meetings Open to Faculty, Staff

Administrators, faculty and staff are invited to attend Student Senate meetings during the fall semester. Meetings are held on Thursdays at 6:30 p.m. in Ganser Library Auditorium.

Dates are as follows: September 2, 9 and 23; October 7 and 21; November 4 and 18; and December 2.

For more information, call ext. 3513.

"Empowering Women" Programs Set for Fall

"Empowering Women" is the inaugural series of programs presented by the Women's Center for the 1993-94 academic year.

The eight programs, which will take place on Tuesdays at 12:15 p.m., address different avenues toward empowerment, from the academic to health to political involvement, and they will feature a number of speakers from the University community.

Virginia Stewart, director of the Women's Center stresses that, "The topics are of interest not just to women, but to the entire University and greater Lancaster communities."

The programs are free and open to the community at large. Each will last approximately 30-40 minutes.

Guests are invited and encouraged to stay for lunch and informal conversation after the programs. Dates, topics, speakers and locations are as follows:

September 14, "Empowering Women Through Women's Studies," Dr. Carole M. Counihan, anthropology; Women's Center, Montour House;

October 5, "Empowering Women Through Personal Health," Dr. Ruth E.

Davis; nursing; Audubon Room, Gordinier Hall;

November 2, "Empowering Women Through Political Action," Dr. G. Terry Madonna, political science; Old Main Room, Gordinier Hall;

December 7, "Empowering Women Through Social Equity," Ms. Patricia Hopson-Shelton, assistant to the president for social equity and diversity; Audubon Room, Gordinier Hall;

February 1, "Empowering Women Through Personal Development," Dr. Rita R. Smith-Wade-El, psychology; Audubon Room, Gordinier Hall;

March 1, "Empowering Women Through Art and History," Ms. Jeri Lynn Robinson-Lawrence, art; Audubon Room, Gordinier Hall;

April 12, "Empowering Women Through Time Management," Dr. George A. Kerekgyarto, industry and technology; Audubon Room, Gordinier Hall; and

May 3, "Empowering Women through Professional Development," Dr. Karen Martucci, director of career services; Audubon Room, Gordinier Hall.

For further information, call ext. 2241.

Cultural Series for 1993-94 to Feature Variety

Henry Winkler, popular actor, producer, director and writer, will open MU's 1993-94 series of cultural programs with a one-person performance on Saturday, September 11.

Well known for his role as "The Fonz" in *Happy Days*, Winkler, using humor and insight, will speak on major issues facing parents and their children today. He has had a personal commitment to helping others, while emphasizing family values.

While "The Fonz" continues to live in the past in reruns, Winkler lives very much in the present. He produces and directs feature films and television programs. Currently, he is preparing to begin production on "Cop and One-Half," a feature he will be directing for Ron Howard's Imagine Films.

Also on the Millersville University cultural entertainment calendar for the coming season are: a concert by the ever popular **U.S. Marine Band** on Saturday, November 13; a staging of the drama *From the Mississippi Delta* on Tuesday, January 25; a one-man show by **John Amos** on Friday, February 4; an appearance by the **Martha Graham Dance Ensemble II** on Wednesday, March 9; a concert by the **United States Naval Academy Band** on Wednesday, April 13; and a performance of *Godspell* on Tuesday, April 19.

Both the U.S. Marine Band and the U.S. Naval Academy Band will appear in Pucillo Gymnasium. All other events will be held in Lyte Auditorium. Curtain time for all shows is 8 p.m.

The U.S. Marine Band, America's oldest musical organization, was established in 1789 by an Act of Congress, making it

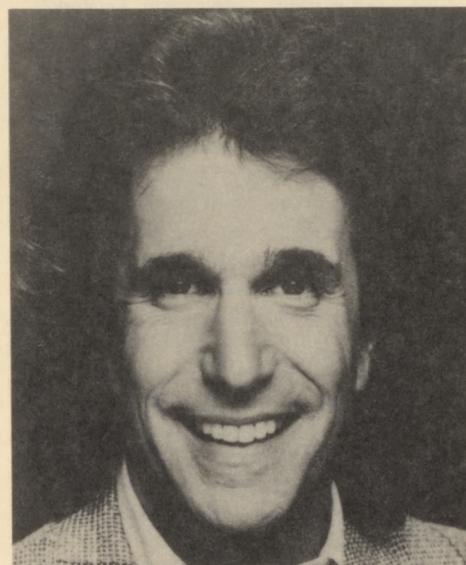

debut on New Year's Day, 1801. It has performed at the inauguration of every President since Thomas Jefferson, who gave the Band the title "The President's Own." Today's Marine Band is comprised of 143 of the nation's finest musicians who give over 600 performances annually.

From the Mississippi Delta, the dramatic life story—from prostitute to professor and playwright, from wild country child to civil rights marcher and feminist—of Endesha Ida Mae Holland is a moving personal portrait of a half-century of astonishing social change. Dr. Holland's acclaimed memoir is being toured by a trio of women whose considerable theatrical skills range from evocative gospel and blues singing to sharply-etched portrayals of a stage-full of friends and neighbors, both urban and country.

John Amos will perform a work he created, *Halley's Comet*, a portrayal of an 87-year-old man in a personal encounter with the famous comet. The work and performance have been hailed as nothing less than "astonishing." Through the still-young and vibrant memories of the character, the work focuses on several important ecological messages and social issues.

The Martha Graham Dance Ensemble II was created in 1982 in response to introduce Martha Graham's technique and repertoire to students and to provide a training ground for future generations of Martha Graham Dance Company members.

The United States Naval Academy Band is the Navy's oldest musical organization. Now in its 140th year, the popular band is composed of over 60 musicians who play a

Henry Winkler

varied repertoire ranging from traditional band literature to popular hits. The performance is co-sponsored by the University and the Lancaster County Veterans Affairs Office.

Godspell, a musical based on the Gospel according to St. Matthew, will be performed by the Nebraska Theatre Caravan. The show ran for 527 Broadway performances in 1976. The Nebraska Theatre Caravan, founded in 1976, is the professional touring wing of the Omaha Playhouse.

Brochures on the 1993-94 series of cultural offerings at MU will be available at the public relations office in Alumni House. Ticket information is available by calling ext. 3512 or 3510.

Faculty, "Light" Exhibits to Open

Two art exhibits, one featuring art faculty work and the other exploring abstract form, will open in September at MU.

The annual University Art Faculty Show will be held Tuesday, September 7, through Friday, September 24.

Both the show and its opening reception on September 7 at 7 p.m. will be held in Sykes Gallery at Breidenstine Hall and are free to the public.

Paintings, drawings, watercolors, photographs, jewelry, computer-generated art, ceramics and sculpture will be featured in the exhibit, which represents the recent works of Millersville's art faculty: Robert Andriulli, John Ground, Ike Hay, Marianne Kerlavage, Robert Lowing, John Markowitz, Robert Nelson, Brigid O'Hanrahan, Leonard

Ragouzeos, Jere Robinson, Ronald Sykes and R. Gordon Wise.

For more information, call ext. 3298.

An exhibition of paintings, drawings and sculptures that explores the duality of nature as expressed through abstract forms, titled "The Far Light," will run from September 7 through October 1.

Free and open to the public, the exhibit will be displayed in Ganser Library Art Gallery. An opening reception at the gallery will be held Thursday, September 9, from 4:30 to 6:30 p.m.

Pieces in the exhibition represent the work of seven artists, including Jane Margaret Dow, Tazuko Ichikawa, W.C. Richardson, Ellen Burchenal, Kendall Buster, Jeffrey Smith and Tom Witt.

MU Wellness Fair Set For September 15

Seven rings, not three, will be the major attractions at MU's annual Wellness Fair, set for Wednesday, September 15.

Each of the rings will focus on one of the seven dimensions of wellness: physical, emotional, environmental, nutritional, intellectual, social and spiritual, according to Sara Lindsley, health information coordinator at MU, who notes that the fair serves to inform people about healthy lifestyle choices.

"In each ring," said Lindsley, "we will have several interactional learning experiences and activities for individuals, sponsored by approximately 60 student groups, campus departments and community organizations."

Open to the public, the fair will be held from 11 a.m. to 6 p.m. on the greens at Gordinier Hall and in the SMC Multipurpose Room. Except for a \$6 cholesterol-screening fee, all activities are free.

For more information, call ext. 3841.

The Exchange is published for employees of Millersville University of Pennsylvania on the first and third Thursdays of the month, except vacation periods. News items should be sent to the MU Public Relations Office (Ext. 3586). Deadline for the next issue is September 8, 1993.

MU is an Equal Opportunity/Affirmative Action institution.
